

# Cambodia NerveNet Field Testing (Operation Management and Content Development to Promote Connectedness of Cambodia Rural Area)

**ASEAN IVO**  
**2016**

By knowing the high demands of connectedness of Cambodian in rural area and the successful implementation of NerveNet in Japan, NIPTICT and NICT have launched a pilot project together called “Cambodia NerveNet Field Testing” since Jan 2014 . The objective of the project is to test NerveNet network and to provide different kinds of information and application to let people in rural areas get connected to the Internet. This pilot project is focused on ICT infrastructure and content sharing for rural area.

## **Project Members :**

- Meas Chamnan Director E-learning , NIPTICT, Cambodia
- Masugi Inoue National Institute for Information and Communications Technology (NICT), Japan
