

ICT R&D IN INDONESIA TOWARDS INDUSTRY 4.0

Invited talk delivered during ASEAN IVO FORUM 2018

DR. BASUKI YUSUF ISKANDAR, MA.

Jakarta, 27 November 2018

DIGITAL DISRUPTION

DISRUPT THE EXISTING JOBS

- In USA, the biggest job gained: Trade (retail and wholesale) 12.8%, biggest job lost: Agriculture 55.9%
- In Indonesia, job lost cause of automation is around 12.5%

DISRUPT THE EXISTING BUSINESS MODEL

Ojek dan Taksi Konvensional

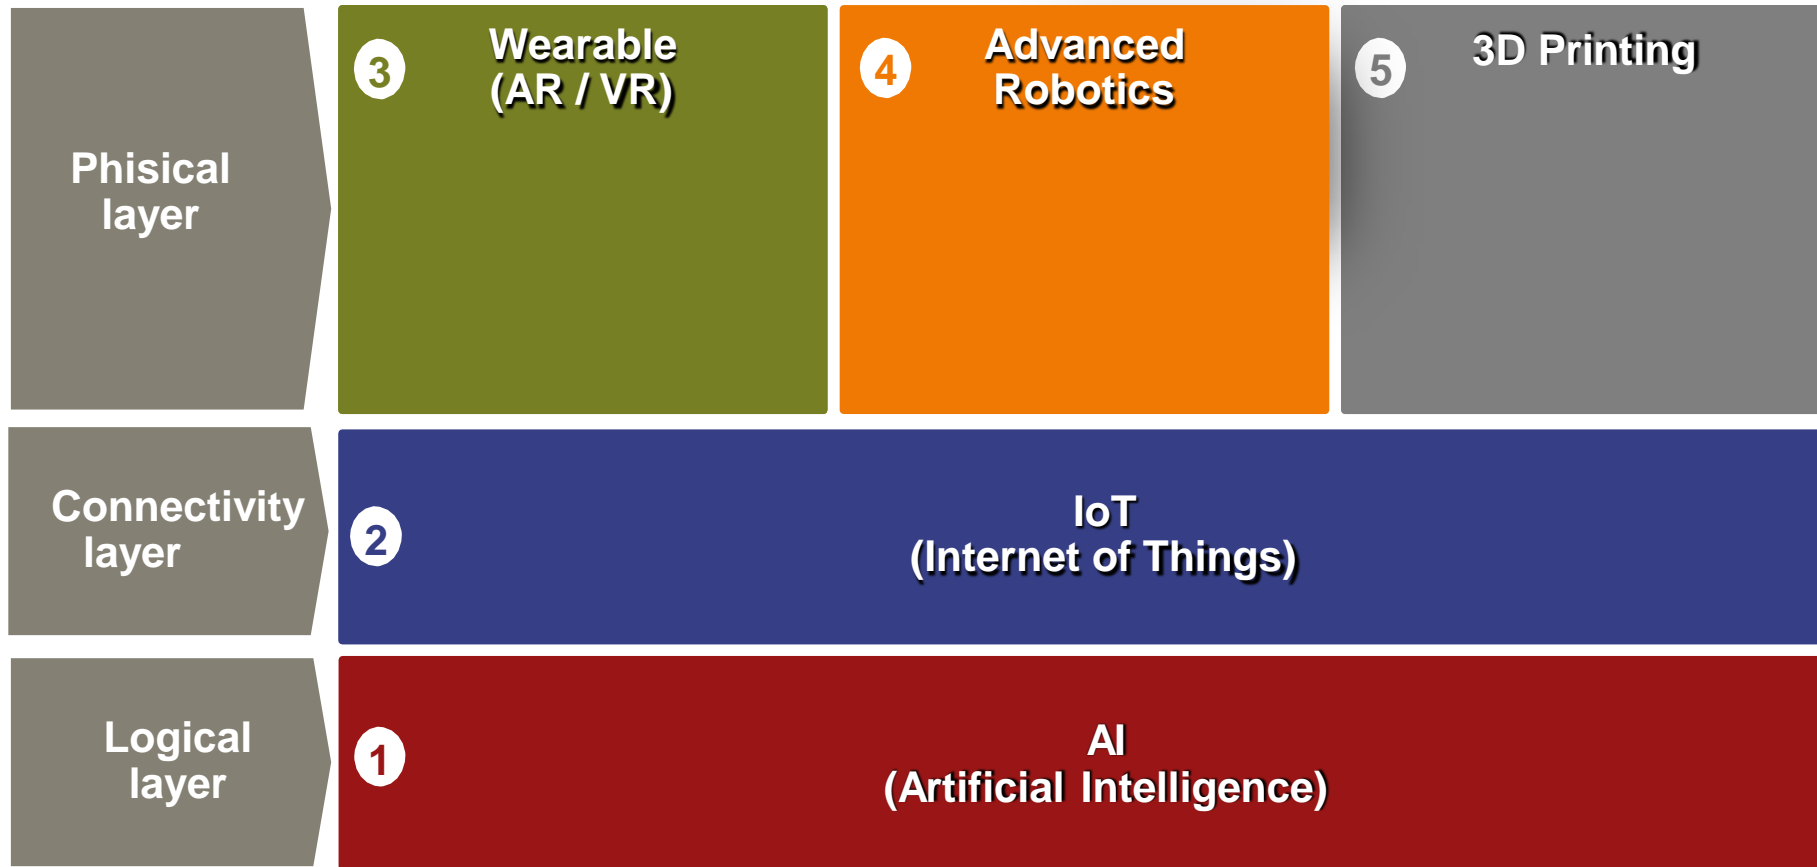

GO-Jek, Grab, dll.

INDUSTRY 4.0

INDUSTRY 4.0

TOWARDS INDUSTRY 4.0

Based on the preliminary evaluation of Country Readiness to IR 4.0, Indonesia is considered as one of the high potential entrants

Initial mapping – country readiness

Preliminary

1. Axes are on a 10 point scale, but have been magnified to show variances between countries
Source: A.T. Kearney, World Economic Forum

TOWARDS INDUSTRY 4.0

INDONESIA IOT MARKET 2015-2022

Sumber: IoT Forum Indonesia

**Mencapai Rp444T
Pada 2022**

SMART CITY

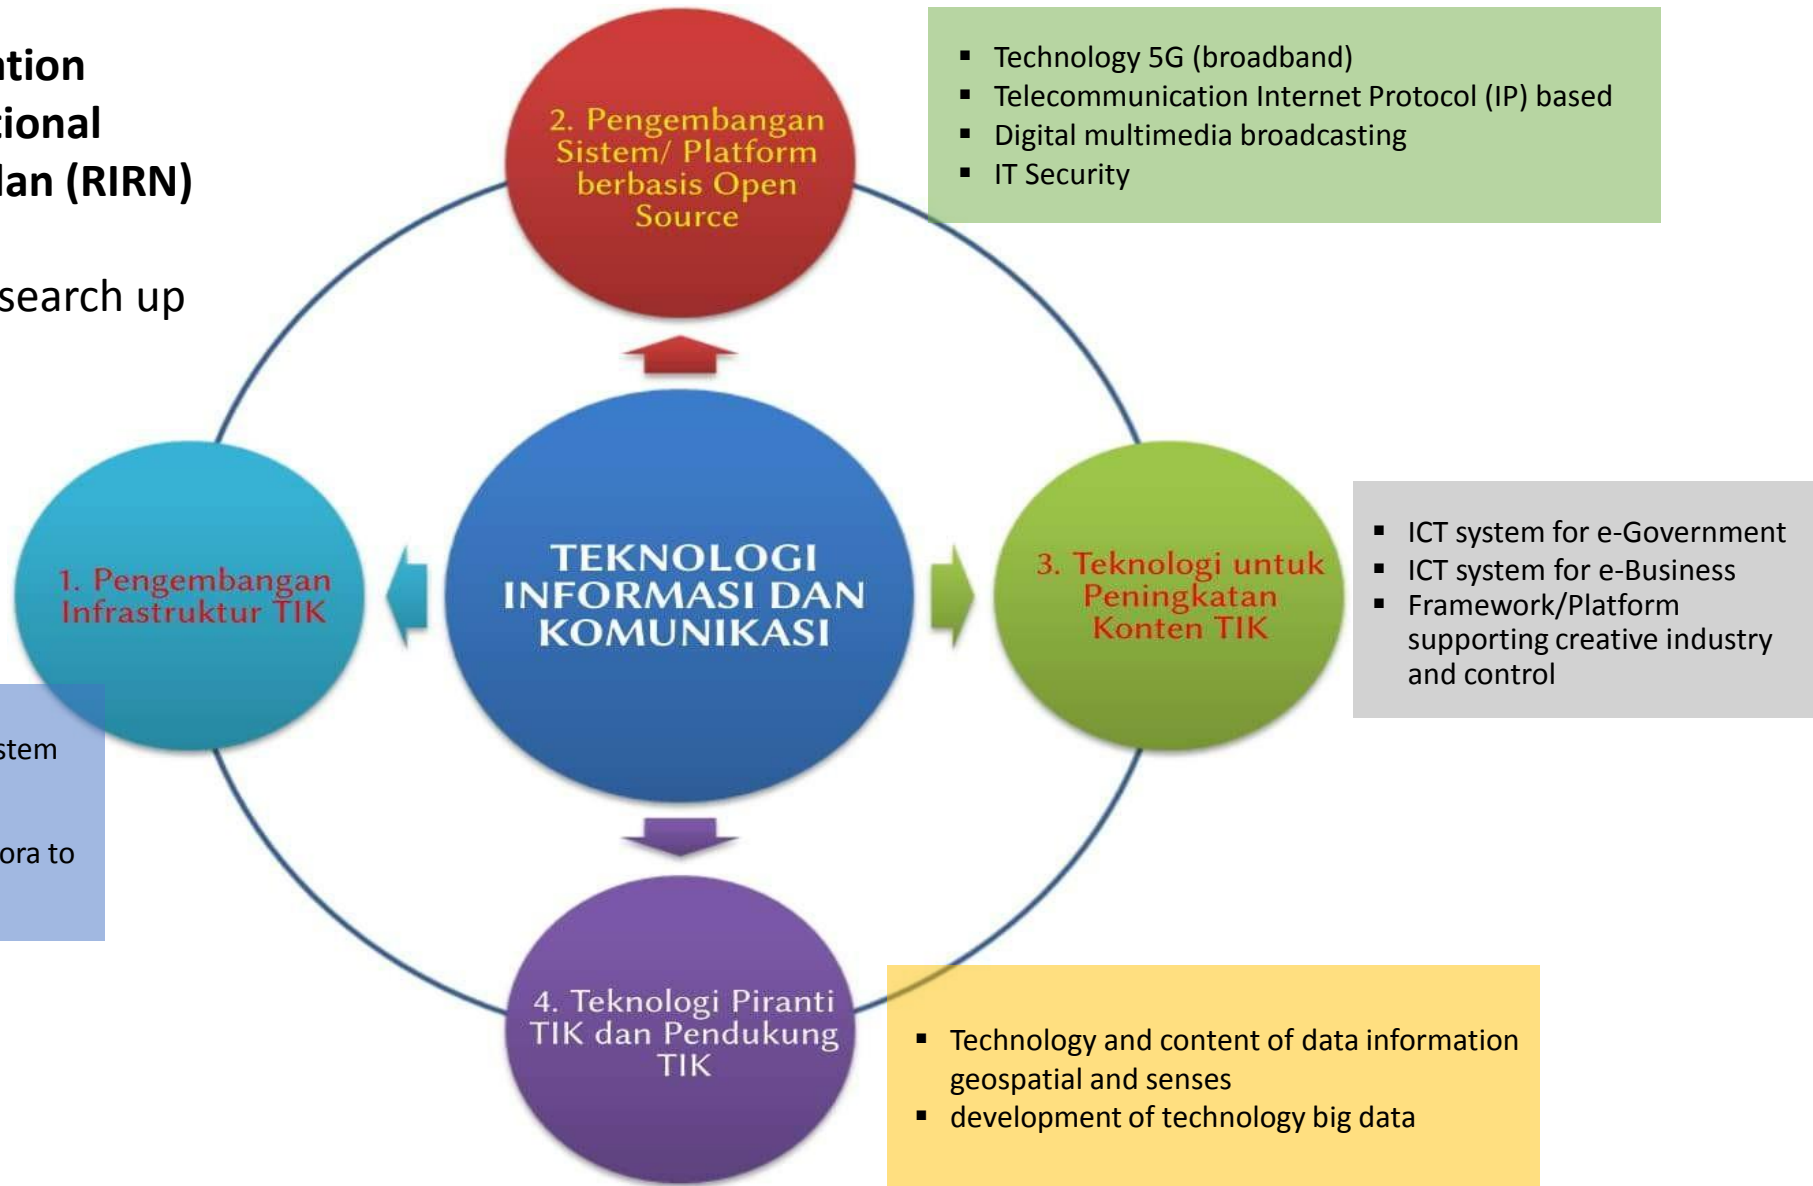

The Local Government create Command Center (IoT + Spasial + Big Data + 5G + AI)

ICT R&D

Presidential Regulation 38/2018 about National Research Master Plan (RIRN) 2017 – 2045

4 Focuses of ICT Research up
to 2019 are:

ICT R&D

Proposed research topics for National Research Priority 2020-2024

No.	Theme	Topic
1	ICT Infrastructure and Access Development	Network technology (a) Satellite, (b) Terrestrial, (c) Fibre Optics
		Receiver dan Transmitter tech
		Smart Antenna and Access tech
		Server tech, High Performance Computing
		Network and Access Supporting Component
2	ICT Application development towards digital economy	E-Learning
		E-Business & Industry
		E-Government & Cyber Security
		Smart City, Smart Nation
		ICT Based Start Up Company

No.	Theme	Topic
3	ICT Technology development to support industry 4.0	Big Data and Cloud Computing
		IoT & Security System
		Artificial Intelligent
		5-G
		Smart Devices
4	ICT based Content Development	Multimedia
		Geographic Information System (GIS)
		Game and Animation
		Image, Audio and Video Processing, Augmented Reality, Virtual Reality
		Social Media
5	Policy research of ICT development	ICT Human resource development
		Energy development for ICT, Green ICT
		ICT National Standard development
		Development of ICT innovation system
		Data Sharing among government

CHALLENGES IN R&D

Relevancy and productivity

Not relevant to market

Low productivity

Research Institutional

Need accreditation

Research Management

Mismatch research institution & industry

Human Resources

Limited

Budget for research

Limited

RESEARCH TRANSFORMATION

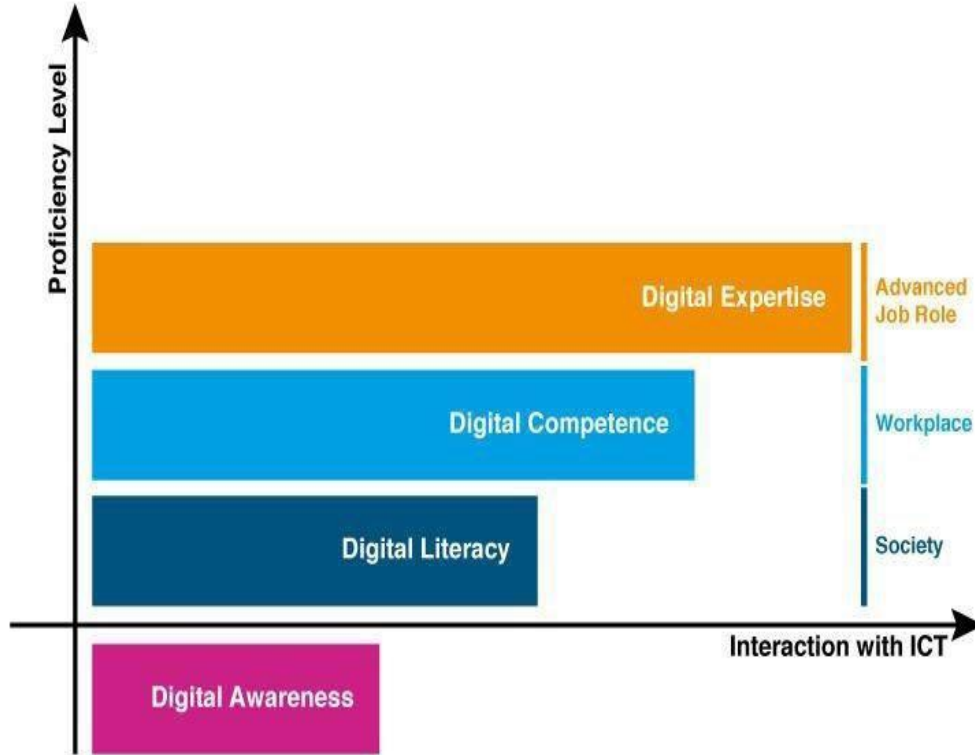

RUU (Proposed Regulation) INNOVATION

Roadmap R&D

Output based research

RUU (Proposed Regulation) National System of Science and Technology

HUMAN CAPITAL

DIGITAL TALENT SCHOLARSHIP

Ingin siap hadapi Revolusi Industri 4.0 ?

Raih beasiswa pelatihan intensif selama 2 bulan untuk 1000 orang!

DIGITAL TALENT SCHOLARSHIP 2018

digitalent.kominfo.go.id

Tema Pelatihan

- Cyber-Security
- Cloud Computing
- Big Data Analytics
- Artificial Intelligence
- Digital Business*

Beasiswa Pelatihan Terbuka Untuk

- Lulusan D3 dan S1
- Lulusan SMK bidang TIK
- ASN/PNS
- Pelaku Industri

Fasilitas

- Pendidikan bebas biaya
- Sertifikat pelatihan
- Kesempatan magang
- Kesempatan pelatihan lanjutan
- Perengkapan pelatihan
- Uang transport
