

# Table of Contents

## NICT Charter

- 1 Message from the President
- 2 Pioneering Future Society with Cutting-Edge ICT

## 6 Research and Development

6 Applied Electromagnetic Research Institute Sensing fundamentals 

8 Network System Research Institute

10 Wireless Networks Research Center Integrated ICT 

12 Universal Communication Research Institute

14 Center for Information and Neural Networks

16 Advanced Speech Translation Research and Development Promotion Center Data utilization and analytics platform 

18 Cybersecurity Research Institute Cybersecurity 

20 Advanced ICT Research Institute Frontier research 

22 ICT Testbed Research and Development Promotion Center

24 National Cyber Training Center

26 AI Science Research and Development Promotion Center

28 Resilient ICT Research Center

30 Big Data Integration Research Center

32 Terahertz Technology Research Center

34 Innovation Promotion Department

36 Global Alliance Department

38 ICT Deployment and Industry Promotion Department Open innovation

## 40 Research Highlights

42 New cryptographic technology for the quantum computer age

43 NICTER Analysis Report 2017

44 Hybrid approach for more accurate "one-second"

46 When people are happy, they can find things faster

47 Uninterrupted communication for users moving at 500km/h

49 Enhancing the energy controllability using strong interaction with photons

50 Toward autonomous transport infrastructure utilizing 5G ultra-low latency

52 High-precision chromatic aberration correction method for super-resolution microscopy

53 Generation of JST is now multiplexed

55 Aiming for further translation accuracy in the medical field

56 Multimode/multicore fiber system for practical optical communication infrastructure

## 58 Organization and Fact Data

58 Budget and Work Force

59 History

## 60 NICT Primary Facilities
