SHORT PERIOD VARIATIONS IN THE IONOSPHERE

By

Yoshiaki NAKATA

CONTENTS

ABSTRACT	1
Chapter I. General Introduction	
§ 1. Historical	3
§ 2. $h'z$ -measurement	4
§ 3. $h'f$ -measurement	5
§ 4. Panoramic $h'z$ -measurement	6
§ 5. Sweep-frequency $h'f$ -and $fct$ -measurements	6
Chapter II. Instrumental	
§ 1. Transmitter and receiver	8
§ 2. Recording arrangements	9
§ 3. Height-and frequency-markers	10
Chapter III. Sweep-Frequency $h'z$ -and $fct$ -Measurements	
§ 1. Introduction	13
§ 2. General observation of sweep-frequency $h'z$ .	14
§ 3. Simultaneous observation of sweep-frequency $h'z$ and $fct$	16
Chapter IV. Stratification and its Development in the $F2$ Region	
§ 1. Introduction	20
§ 2. Stratification in the $F2$ region	20
§ 3. Major travelling disturbance in the $F2$ region	25
Chapter V. Sunrise Effect on the $F2$ Region—Existence of Negative Ions.	
§ 1. Variation of the $F2$ region near the sunrise—experimental results	26
§ 2. The time of sunrise at different atmospheric levels	27
§ 3. Analysis of the $F2$ region sunrise effect—especially the stratification by photo-detachment from negative ions	29

Chapter VI. *hf* Observations during the Eclipse

§ 1. Introduction . . . . .	34
§ 2. Determination of the recombination-or attachment-coefficients . . . . .	35
§ 3. Observation of the annular eclipse of May 9, 1948 . . . . .	37
§ 4. Observation of the partial eclipse of September 12, 1950 . . . . .	42
§ 5. Observation of the partial eclipse of February 14, 1953 . . . . .	44
§ 6. Conclusion . . . . .	48

Chapter VII. Association with Geomagnetic Variation

§ 1. Introduction . . . . .	50
§ 2. Ionospheric accompaniments of sudden-commencement of geomagnetic disturbance . . . . .	51
§ 3. Fluctuation of $\Delta f$ for short-interval observation of <i>hf</i> . . . . .	54
§ 4. The influence of magnetic intensity on the ionosphere . . . . .	55
§ 5. Time difference of appearance of splitting rays . . . . .	61

Chapter VIII. General Conclusion . . . . . 63
