

JOURNAL OF THE RADIO RESEARCH LABORATORIES

CONTENTS

I. Power Spectrum of a Phase-Modulated Wave by a Multiplex Telephony Signal By M. Yokoyama, H. Sasaoka, and T. Kobayashi	1
II. Horn-Reflector Antenna for Communication Satellite Used in Microwave and Millimeter Wave Regions By T. Teshirogi, K. Tsukamoto, H. Komuro T. Katagi, N. Watanabe, and F. Takeda	17
III. Least Squares Estimation of Transmitting Power and Ionospheric Attenuation for 9.303 MHz Sounder Radio Waves from ISIS-II By T. Iida and T. Shiomi	31
IV. Pre-Estimation of Cross-Polarization Discrimination due to Rain By T. Kobayashi	47
V. On the Reflection and Transmission Losses for Ionospheric Es Propagation Waves By K. Sinno, M. Kan, and Y. Hirukawa	65
VI. A Time Comparison Experiment Performed by SSRA System via ATS-1 By M. Yamamoto, K. Harada, and Y. Saburi	85
VII. International Geophysical Calendar for 1976	105
