CHIN VANNAK

MULTI GROUP VPN WITH VERTICAL MANAGEMENT
THANK
The history of the Internet has its origin in the efforts of wide area networking that originated in several computer science laboratories in the United States, United Kingdom, and France in 1960s.

Until now, there is a lack of security over the Internet.
Files are shared insecurely over the Internet.
OBJECTIVES

Secure Communication

Group Communication

Vertical Communication
01 SECURE CONNECTION
All traffic is encrypted with IPSec.

02 SCALABILITY
It is easy to add more sites.

03 HIGH AVAILABILITY
We can access files from multiple locations.
Prevent Data Losses due to any hacks or attacks.

Make it easier to control data transmission

01

02
CONCLUSION

Preventing is better than fixing.
