

■ International Conference on Emerging Technologies on Achieving SDGs

On Tuesday, November 5, 2019, "International Conference on Emerging Technologies on Achieving SDGs" organized by APCTT, an international organization, was held at Hotel Istana, Kuala Lumpur, Malaysia. The meeting was hosted by the Asia and Pacific Center for Transfer of Technology (APCTT), which is headquartered in New Delhi, India. APCTT is a subordinate organization of UN ESCAP (United Nations Asia-Pacific Economic and Social Committee). The purpose is to share new technologies, applications and best practices using these, which are necessary to realize SDGs.。

At the request of the organizer, Director Kono from the Asia Center participated to explain the importance of ICT in the SDGs, as well as presented specific initiatives in the Southeast Asian region including ASEAN IVO and the latest ICT trends such as 5G.

Presentation by Kono
