

JOURNAL
OF THE
RADIO RESEARCH LABORATORIES

OCTOBER, 1955

CONTENTS

I. Propagation of Electro-Magnetic Waves over the Spherical Earth
Across Boundaries Separating Different Earth Media
. *By K. Furutsu* 345

II. D-E Layer Electron Model Reduced from Considerations of *MF* and
HF Wave Absorption
. *By T. Kobayashi* 399

III. Movements of Irregularities in the E Region (II)
. *By T. Obayashi* 413

IV. On the Multiple Scattering of Waves by an Irregular Medium
. *By H. Hojo* 419

Contents of Volume 2.
