

JOURNAL  
OF THE  
RADIO RESEARCH LABORATORIES

JULY 1959

CONTENTS

I. Analysis of Focuser for Maser Oscillators . . . . .	By <i>M. Hirono</i> 515
II. Precision Thermostat . . . . .	By <i>Y. Hiruta, T. Kawana and T. Shirai</i> 533
III. Theoretical Considerations of the Element Error Rate in Binary Code Telecommunication . . . . .	By <i>H. Akima</i> 543
IV. Intermittent Communication of Frequency Modulated Binary Code . . . . .	By <i>K. Ikushima</i> 573
V. Vertical Distribution of the Scattering Parameter for Radio Wave. . . . .	By <i>K. Hirao, K. Akita and I. Shiro</i> 595
VI. A Possibility of the Long Distance HF Propagation Along the Exospheric Field-Aligned Ionizations . . . . .	By <i>T. Obayashi</i> 603
NOTICE . . . . .	613

---

Polar Blackouts Associated with Severe Geomagnetic Storms  
on Sept. 13th, 1957 and Feb. 11th, 1958 (Reprinted from Rep.  
Ionos. Res. Japan, Vol. XII, No. 4, 1958)

. . . . . By *Y. Hakura, Y. Takenoshita and T. Otsuki*

An Experimental Proof of the Mode Theory of VLF Ionospheric  
Propagation (Reprinted from J. Geomagnetism and Geo-  
electricity, Vol. X, No. 2, 1959)

. . . . . By *T. Obayashi, S. Fujii and T. Kidokoro*
