

JOURNAL
OF THE
RADIO RESEARCH LABORATORIES

NOVEMBER 1982

CONTENTS

- I. Plasmaspheric ELF Hiss Observed by ISIS Satellites
 *By T. Ondoh, Y. Nakamura, S. Watanabe, K. Aikyo and T. Murakami* 159
- II. Quantitative Study of Substorm-Associated VLF Phase Anomalies
 and Precipitating Energetic Electrons
 *By T. Kikuchi and D.S. Evans* 183
- III. Relative Field Strength of VHF/UHF Horizontally Polarized Waves
 in 5 to 100-meter Range of Propagation
 *By T. Kawana and C. Miki* 201
- IV. A System for Spacecraft Attitude Determination Using Laser
 Techniques *By T. Aruga and T. Igarashi* 221
- V. International Geophysical Calendar for 1983 241
- Table of Contents and Index of Authors in Volume 29
