

JOURNAL  
OF THE  
RADIO RESEARCH LABORATORY

---

NOVEMBER 1985

---

CONTENTS

- I. Theoretical Limitation of Fading Reduction by Space or  
Frequency Diversity  
..... *By K. Takahashi* 129
- II. The Time and Frequency Standard of the K-3 VLBI System  
..... *By T. Morikawa, T. Sato, M. Imae, H. Kiuchi, Y. Ohta,  
and N. Kurihara* 141
- III. Development of K-3 VLBI Automatic Operation Software  
..... *By A. Kaneko, H. Murakami, S. Kozono, F. Takahashi,  
and T. Yoshino* 155
- IV. Magnetic Field Structures of Solar Active Regions Obtained  
by Polarization Mapping Observation at 32 GHz  
..... *By H. Kumagai* 167
- Notice
- V. Abstract of Research Papers Published in the Issues of "Review  
of the Radio Research Laboratory" (in Japanese), Vol. 31,  
Nos. 158 to 160, 1985, and Vol. 31, Special Issue No. 2,  
January 1985 ..... 175
- VI. International Geophysical Calendar for 1986 ..... 193
- Table of Contents and Index of Authors in Volume 32
