

JOURNAL OF THE COMMUNICATIONS RESEARCH LABORATORY

Vol. 44 No. 3 1997

CONTENTS

Message to Readers

- On the External Review of Research Activities . . . . . *By Akira Sugiura* 359

Recent Activities in CRL

- An Integrated Multimedia Transmission Protocol For High-Speed Wireless LAN  
. . . . . *By Gang Wu and Yoshihiro Hase* 361
- Self-Beam Steering Array Antenna by Digital Beamforming  
—with a view to give intelligence to antennas— . . . . . *By Ryu Miura* 373
- CRL research of human brain functions for advanced communication systems  
—(1) Context-specificity of the human motor learning— . . . . *By Masahiko Fujita* 389
- Noninvasive measurement of human brain functions: brain activation by missing auditory  
stimuli . . . . . *By Satoru Miyauchi* 397
- Internal Space Charge Behaviour Of Polymers For The Study Of Electrostatic Phenomena  
. . . . . *By Kaori Fukunaga and Takashi Maeno* 411
- Development of the CRL airborne multiparameter precipitation radar (CAMPR) and  
preliminary observation results . . . . . *By Hiroshi Hanado, Sinsuke Satoh,  
Nobuhiro Takahashi, Toshio Iguchi, Hiroshi Kumagai, and Toshiaki Kozu* 417

Departments

- Abstract of Research Papers Published in the Issues of "Review of the Communications  
Research Laboratory" (in Japanese), Vol. 43, No. 3, 1997 . . . . . 423
- International Geophysical Calendar 1998 . . . . . 437
