

Showcasing Initiatives by ICT Startups Shaping the Future

Venue: Future Life Experience (FLE);
Expo 2025 Osaka, Kansai

A Glimpse into the Near Future with ICT
Startups

How can ICT startups address everyday
challenges in the near future?

At Expo 2025, discover innovative
technologies presented by startups that took
part in the Entrepreneur Expo, organized by
the Ministry of Internal Affairs and
Communications (MIC) and NICT since 2002.

FLE Special Exhibition

Exploring Near-Future Solutions with ICT Startups

What kinds of solutions and services for everyday challenges in the near future can be created through the use of ICT? In this FLE Special Exhibition, you will encounter technologies from startups that participated in the Entrepreneur Expo—an annual event organized by the Ministry of Internal Affairs and Communications (MIC) and NICT—alongside innovations from NICT researchers. Together, they offer “A Glimpse into the Near Future Presented by ICT Startups.” In this near future, how might our society and daily lives be transformed? Ways of helping one another, methods of mobility, and even the ocean environment may change. From the Gateway to the Future, take a step forward and see what lies ahead.

FLE Stage

Alumni Network Night

2025/9/16 Tue 17:00 ~ 18:30

An event will be held for the alumni of Entrepreneur Koshien and Entrepreneur Expo. The aim is to strengthen alumni networking under the banner of “Entrepreneur Koshien” and “Entrepreneur Expo,” fostering vertical and horizontal connections. We will declare the creation of an environment where alumni can engage in consultation, advice, and collaboration, and hold sessions where participants can experience the power of the alumni network.

NICT Next Entrepreneurs Pitch

2025/9/17 Wed 13:00 ~ 16:50

With the cooperation of “Startup Challenge Koshien” and the “High School Business Plan Grand Prix,” a special pitch event has been organized for Expo 2025 Osaka, Kansai.

Young people full of entrepreneurial spirit will take the stage. High school students from the Kansai region will present the business ideas they have refined during their studies, sharing the vision of the future they wish to create.
